DETAILED ACTION

1. This action is responsive to amendment filed 07/28/05.
2. Claims 2, 4-9, 13, 14, 16-19 are pending in the application.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Claims 14 and 19, the prior art does not teach a texture cache arbiter for scheduling and controlling the actual transfer of texels from said texture main memory into the texture cache memory and controlling the outputting of texels for each pixel to a interpolating filter from the cache memory, said cache arbiter coupled between said controller and said texture cache memory for determining which texels in the cache memory can be overwritten when new texels are determined to be transferred to said cache memory by said cache controller, said texture cache arbiter transfers said texels from said texture main memory into the cache memory according to a look-ahead algorithm to hide read and write access clock cycles between sequential pixels, wherein the system further includes a span based polygon rasterization scheme so neighboring pixels of a primitive will be processed sequentially.

Claim 18, the prior art does not teach a method of controlling the transfer of texture data between a texture main memory and a texture cache memory while maintaining the most recently used data in the texture cache memory comprising if a match is found moving the addresses from the first stage to the second stage and loading the addresses into the first stage moving to a third stage if no match is

found; when addresses are loaded into the first stage the tag assigned will be either the tag of the last stage or the tag within the stage that was hit, and transferring texture data at a main memory access granularity, wherein the method further includes processing neighboring pixels of a primitive sequentially in accordance with a span based polygon rasterization scheme.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
